

ONCE UPON A TIME

1. While at the zoo, you were bitten by a rare species of monkey. You are starting to feel very sick, and your doctor diagnoses you with a very serious illness. Your doctor is unsure of how to cure you, and doesn't know whether the disease is fatal. He tells you that you have to give up one of your favorite activities.
2. Because of the disease, you are hospitalized for a short time. You must lose one of your goals.
3. Because of your time off from work, you are short of cash and have to give up one of your possessions.
4. You are hospitalized again. The medical bills keep coming and you have to give up another possession.
5. You are exhausted from the illness and trying to work. You lose one of your goals and must give up an activity. Also, two important people disappear from your life, because you are no longer able to maintain relationships.
6. You are permanently hospitalized. You are allowed only one visitor and can take only one possession to the hospital with you. Discard two important people, and two possessions.
7. Your doctor finds a hospital in Europe that specializes in rare monkey bites. Once there, you will have to live near the hospital for the rest of your life in case you ever suffer from symptoms again. You must discard three of your remaining squares. Which will they be?
8. You are starting your life over again with only this person, possession, goal, or activity.
